## THE PLATFORM STAIRLIFTS

This range of platform stairlifts provides safe access to all private and public premises (for example offices, shops, schools, theatres, subways, etc.).

Designed for the user **comfort**, they can be used **easily** and **safely** and they provide fully independent access to the next level.

## STRONG AND RELIABLE

The V64 and V65 platform stairlifts are suitable for installation both indoor and outdoor. Thanks to the innovative design features the V64 and V65 will continue to perform, even in severe weather conditions.

## TECHNOLOGY AND SAFETY

V64 and V65 are equipped with wireless push button controls. Both the V64 and V65 are available with retractable safety arms. This allows both products to be used even in areas with a reduced headroom and in narrower spaces.

## FLEXIBILITY

The V64 and V65 are designed in compliance with EN 8140, and they are available with 3 platform sizes:

### STANDARD

A compact platform for installation with small staircases and landings;

### LARGE

To accommodate all types of wheelchair;

### EXTRALARGE

To meet all transportation needs.

# V64

## VERSATILE AND FUNCTIONAL

---

The V64 wheelchair platform,  
travels on a straight rail  
(ideal for one flight of stairs).

Installation of the V64 is carried  
out **in a day** and does not require any building  
work to change the building style.

# V65

RELIABLE  
AND SAFE

---

V65 is the curved inclined platform stairlift.

It can be installed to serve also the most difficult stair configuration, with a rail that can reach 60 m length.

The V65 model is always tailor made, with a dedicated safety equipment for the person being transported.

The assembly is done **in one day** and it does not require any architectural intervention on the existing structure.
